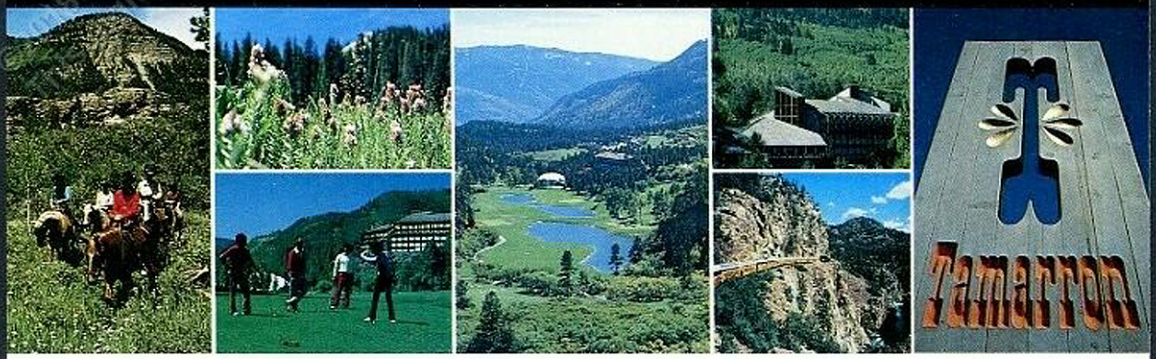
Tamarron's Value Season Package Can Cut Your Convention Costs 33%



If you meet at Tamarron between October and May, you can save as much as 33% on your convention. Spring and fall—southwestern Colorado's most refreshing times of the year—are Tamarron's most inviting conference seasons. Although most people think of Colorado as a summer convention site, by May the snow has retreated to high country and the first colors of the season are heralding "springtime in the Rockies." During fall, the San Juan's foliage provides a vibrant backdrop for one of Colorado's finest resort and convention facilities. Colorado has long been known as a winter resort and convention area—Tamarron is no exception!
