

Tamarron Association of Condominium Owners:

This letter is to let you know that I am submitting my name to run for re-election to the Tamarron Board of Directors.

Having owned in Highpoint since 1995 and watched our community grow in so many ways, staying connected and wanting to help any way I can remains a priority for me. Here is a quick synopsis of my background.

Government experience:

- 1995 through 2009 I had the privilege of being either Mayor or Mayor Pro-Tem, for the City of Kemah.
- Served on our water board, WCID-12 for 2 years, 2011 through 2013. I was asked back on City Council in 2014 -2016 to help finish several major projects that we started while I was Mayor.
- Served as a board member/executive board member for Bay Area Houston Economic Partnership for 12 years.
- Served as a board member as well as the Chairman of The Bay Area Convention & Visitors Bureau for 11 years.
- Served our community in numerous advisory roles for CCISD School District, Bay Area Transportation Council, and many of our region's environmental tasks forces.

Part of the fun of being so involved in our community in the government sector was that I had the absolute privilege of coaching just about every kid around in football, baseball, basketball and track and field. I still train many of our local athletes today, those in high school, college and the pros.

One other note, and this may sound somewhat odd, one of the best things I was able to accomplish (with so much help from some incredible people), is preparing for so many of the storms that form in the Gulf of Mexico, and leading our city to a fairly speedy recovery after Hurricane Ike leveled our town in 2008. We had no loss of life and were back in business very quickly. Our town came together in so many ways. From what I hear, the state of Texas uses today, many of the practices we used and implemented during this time for all of our coastal communities. After Hurricane Harvey hit, I was in Rockport aiding friends of mine that were key in leading that recovery effort.

Professional experience:

- Work for a company called SanMar since 2007 as a Territory Manager.
- 1995 to 2007 worked as an independent representative/salesman for my own company, Collins Marketing, handling several states and multiple lines of many of the top brands that sell into the key retail channels. Worked with all the professional, college and high school teams in the southwest region of the country. Texas, Louisiana, Oklahoma, New Mexico, Arkansas, California, and some of Colorado. Many of the brands/products that I represented I also was able to sell into mainstream corporate markets.

I also had the good fortune of working quite a bit in the golf industry as well. Now that was fun.

I have two sons, Christopher and Dylan, that have been at Tamarron since they were two years old. This is where they learned to play golf, fish, hike, camp, ski, snowboard whitewater raft, and truly respect nature.

Thank you,
Greg Collins
